Spokane-based Partnering for Progress urgently needs medical providers to join our service team for travel to Kenya May 13-22, 2016. Physicians, pediatricians, nurses, nurse practitioners or other medical providers will provide health care and medical training to the villagers in the Kopanga/ Giribe area of southwest Kenya. Trips are approximately nine days long and are self-funded. There is opportunity to add a safari or Kenyan excursion onto your volunteer adventure (at your own expense), and P4P can assist with planning. Please contact Stacey Mainer, mainer20@gmail.com, or Sandy Ivers, sivers@comcast.net, for more information. Or reply to info@partneringforprogress.org 509-720-8408
